Prices are obtained from independent quotation bureaus that use computerized valuation formulas to calculate current values. Actual market values may vary and thus gains/losses may not be accurately reflected. Cost basis has been automatically adjusted for mandatory amortization of bond premium on coupon tax-exempt municipal securities using the constant yield method and for accreted original issue

discount for securities issued at a discount. When original cost basis is displayed, amortization has been done using the constant yield method, otherwise amortization has been done using the straight line method.
